

Discover Series Horizontal Arm CMMs

The Most Precise Horizontal Arm CMM

The Most Precise Horizontal Arm CMM

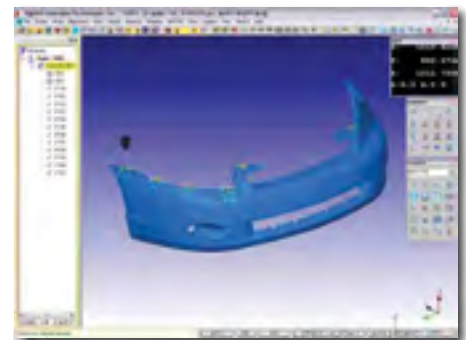

- Robust, precise and most reliable CMM incorporating best CMM technology to offer consistent performance.
- Is built using high-precision granite guide ways with all axis movement on advanced air-bearings and well engineered transmission.
- Superior measurement performance in speed, accuracy & repeatability guaranteed by use of precision granite guideways and air bearings.
- The use of natural material of granite offers best geometric precision and long term consistent performance as it is stress-free and does not distort over time.
- The Discover CMM in CNC mode combined with powerful CAD based 3D measurement software & Renishaw probing system provides unmatched capabilities to address all the measurements / scanning of complex parts.

Applications:

Best suited for precision measurement of large size automotive dies, press tools, sheet metal body parts, checking fixtures, plastic parts, aerospace frames & components.

Measuring range (mm)	X upto 4000 mm
	Y upto 1500
	Z upto 1500
MPEe (µm)	15 + 15L / 1000 µm
MPEp (µm)	10 µm
